

DIPTI ARYAL

Computer Science Graduate | UI/UX Design | QA | Business Analysis

Kathmandu, Nepal | +977-9866286545 | aryalDipti42@gmail.com | [linkedin.com/in/diptiaryal](https://www.linkedin.com/in/diptiaryal)

PROFESSIONAL SUMMARY

BSc (Hons) Computer Science graduate from Herald College Kathmandu (affiliated with University of Wolverhampton) with hands-on UI/UX design experience across three end-to-end projects and a UI/UX design internship at Herald Development Platform. Designed and developed MediQ, a live AI-powered medical appointment platform, from concept through to working web application. Experienced in design, business analysis, and QA through academic projects and professional internship experience, with exposure to Agile team environments. Eager to contribute to a collaborative IT team while continuing to learn and grow.

WORK EXPERIENCE

UI/UX Design Intern | Herald Development Platform 2025

- Delivered Presented a UX case study of my HomeEase project, including user research, usability findings, and design decisions.
- Designed mobile app screens for Herald Sync by adapting features from existing Herald platforms into a single application, following the project's design system.

PROJECTS

MediQ — AI-Powered Medical Appointment Platform | Designer & Developer | Final Year Project 2025 – 2026

- Designed the end-to-end product experience in Figma: patient onboarding, AI symptom input flow, specialist recommendation, token-based queue, and appointment confirmation.
- Designed the AI assistant flow that interprets patient-described symptoms and recommends the appropriate medical specialist, removing guesswork from booking the right doctor.
- Designed and developed a live web application, delivering a working product with AI-powered symptom checking and token-based appointment booking.

HomeEase — Local Service Discovery App | UI/UX Designer 2025

- Designed a mobile app in Figma connecting customers with local service providers, applying user-centred design and accessibility principles throughout.
- Conducted user research and usability evaluations with four participants; delivered user flows, interactive prototypes, and responsive interface designs.

Hamro Doctor — Online Medical Appointment System | Business Analyst & QA 2025

- Led requirements gathering for a team of six, producing an SRS covering functional and non-functional requirements, user stories, and acceptance criteria.
- Performed manual testing writing and executing test cases, identifying defects, and documenting bugs for resolution.

KEY SKILLS

UI/UX Design: Figma, Wireframing, Prototyping, User Journey Mapping, Usability Testing

Business Analysis: Requirements Gathering, SRS Documentation, User Stories, Stakeholder Analysis

Software Engineering: Agile, Scrum, UML Diagrams, SDLC, Software Documentation

Web Development: HTML, CSS, JavaScript, Responsive Design

Databases & Cloud: MySQL, Firebase Hosting, AWS S3

Tools: Git, GitHub, VS Code, MongoDB, SQL, Microsoft Office

QA: Manual Testing, Test Case Writing, Bug Reporting

EDUCATION

BSc (Hons) Computer Science | Herald College Kathmandu

2024 – 2027

Affiliated with University of Wolverhampton, United Kingdom

Relevant Coursework: Human-Computer Interaction, Software Engineering, Software Testing, Business Analysis, Web Development, Database Systems, Cloud Computing, Object-Oriented Programming

EXTRACURRICULAR ACTIVITIES

Community Designer | DevOps Pioneer Community

2025

- Designed promotional materials including flex banners and event posters for community events and initiatives.
- Represented the community at DevFest 2026, engaging students through hands-on DevOps-themed activities and explaining core concepts to a non-technical audience.
